

## Ohio Revised Code

### Section 3311.215 Facilities of joint districts.

Effective: December 1, 1967

Legislation: House Bill 545 - 107th General Assembly

---

Facilities of the joint vocational school districts may be used for post-high school training, technical training, and re-training programs of vocational education. A joint vocational school district operating a vocational school may construct, maintain, and operate facilities other than those used for vocational training to be used solely for post-high school training, technical training, re-training programs of vocational education, dormitories, and other facilities for the use of any student.
