

Ohio Revised Code

Section 3715.022 Standards for food sampling and procedures for administration.

Effective: November 21, 2001

Legislation: Senate Bill 136 - 124th General Assembly

(A) All food products, including those produced and packaged by a cottage food production operation, and all packaged maple syrup, sorghum, and honey, are subject to food sampling conducted by the director of agriculture, or a representative the director authorizes, to determine if a food product is misbranded or adulterated. A component of the food sampling conducted under this section may include the performance of sample analyses in accordance with section 3715.02 of the Revised Code.

The director of agriculture shall adopt rules as the director considers necessary to establish standards for food sampling and procedures for administration of this section. The rules shall be adopted in accordance with Chapter 119. of the Revised Code.

(B) Labeling requirements do not apply to fruit butter produced at a festival or celebration, if the festival or celebration is organized by a political subdivision of this state and the fruit butter is sold during the festival or celebration from the production site.
