

## Ohio Revised Code

### Section 3725.06 Monthly report to health commissioner.

Effective: September 19, 1975

Legislation: House Bill 554 - 111th General Assembly

---

Each plasmapheresis center shall report monthly to the health commissioner of the city or general health district or other administrator of public health appointed under Chapter 3709. of the Revised Code for the health district in which the center is located, the total number of plasma donations received, the total number of hepatitis B antigen positive donations received, and the names of all hepatitis B antigen positive donors. Each plasmapheresis center shall also report to such administrator the names of all personnel and donors who develop hepatitis or other diseases or serious reactions related to plasmapheresis, and shall report immediately the names of all donors testing positive for syphilis.
