

Ohio Revised Code

Section 3734.18 Fees - hazardous waste facility management fund.

Effective: September 29, 2011

Legislation: House Bill 153 - 129th General Assembly

(A) As used in this section:

(1) "On-site facility" means a facility that treats or disposes of hazardous waste that is generated on the premises of the facility.

(2) "Off-site facility" means a facility that treats or disposes of hazardous waste that is generated off the premises of the facility.

(3) "Satellite facility" means any of the following:

(a) An on-site facility that also receives hazardous waste from other premises owned by the same person who generates the waste on the facility premises;

(b) An off-site facility operated so that all of the hazardous waste it receives is generated on one or more premises owned by the person who owns the facility;

(c) An on-site facility that also receives hazardous waste that is transported uninterruptedly and directly to the facility through a pipeline from a generator who is not the owner of the facility.

(B) A treatment or disposal facility that is subject to the fees that are levied under this section may be both an on-site facility and an off-site facility. The determination of whether an on-site facility fee or an off-site facility fee is to be paid for a hazardous waste that is treated or disposed of at the facility shall be based on whether that hazardous waste was generated on or off the premises of the facility.

(C) There are hereby levied fees on the disposal of hazardous waste to be collected according to the following schedule at each disposal facility to which a hazardous waste facility installation and operation permit or renewal of a permit has been issued under this chapter or that is operating in

accordance with a permit by rule under rules adopted by the director of environmental protection:

(1) For disposal facilities that are off-site facilities, fees shall be levied at the rate of four dollars and fifty cents per ton for hazardous waste disposed of by deep well injection and nine dollars per ton for hazardous waste disposed of by land application or landfilling. The owner or operator of the facility, as a trustee for the state, shall collect the fees and forward them to the director in accordance with rules adopted under this section.

(2) For disposal facilities that are on-site or satellite facilities, fees shall be levied at the rate of two dollars per ton for hazardous waste disposed of by deep well injection and four dollars per ton for hazardous waste disposed of by land application or landfilling. The maximum annual disposal fee for an on-site disposal facility that disposes of one hundred thousand tons or less of hazardous waste in a year is twenty-five thousand dollars. The maximum annual disposal fee for an on-site facility that disposes of more than one hundred thousand tons of hazardous waste in a year by land application or landfilling is fifty thousand dollars, and the maximum annual fee for an on-site facility that disposes of more than one hundred thousand tons of hazardous waste in a year by deep well injection is one hundred thousand dollars. The maximum annual disposal fee for a satellite facility that disposes of one hundred thousand tons or less of hazardous waste in a year is thirty-seven thousand five hundred dollars, and the maximum annual disposal fee for a satellite facility that disposes of more than one hundred thousand tons of hazardous waste in a year is seventy-five thousand dollars, except that a satellite facility defined under division (A)(3)(b) of this section that receives hazardous waste from a single generation site is subject to the same maximum annual disposal fees as an on-site disposal facility. The owner or operator shall pay the fee to the director each year upon the anniversary of the date of issuance of the owner's or operator's installation and operation permit during the term of that permit and any renewal permit issued under division (H) of section 3734.05 of the Revised Code or on the anniversary of the date of a permit by rule. If payment is late, the owner or operator shall pay an additional ten per cent of the amount of the fee for each month that it is late.

(D) There are hereby levied fees at the rate of two dollars per ton on hazardous waste that is treated at treatment facilities that are not on-site or satellite facilities to which a hazardous waste facility installation and operation permit or renewal of a permit has been issued under this chapter, whose owner or operator is operating in accordance with a permit by rule under rules adopted by the

director, or that are not subject to the hazardous waste facility installation and operation permit requirements under rules adopted by the director.

(E) There are hereby levied additional fees on the treatment and disposal of hazardous waste at the rate of ten per cent of the applicable fees prescribed in division (C) or (D) of this section for the purposes of paying the costs of municipal corporations and counties for conducting reviews of applications for hazardous waste facility installation and operation permits for proposed new or modified hazardous waste landfills within their boundaries, emergency response actions with respect to releases of hazardous waste from hazardous waste facilities within their boundaries, monitoring the operation of such hazardous waste facilities, and local waste management planning programs. The owner or operator of a facility located within a municipal corporation, as a trustee for the municipal corporation, shall collect the fees levied by this division and forward them to the treasurer of the municipal corporation or such officer as, by virtue of the charter, has the duties of the treasurer in accordance with rules adopted under this section. The owner or operator of a facility located in an unincorporated area, as a trustee of the county in which the facility is located, shall collect the fees levied by this division and forward them to the county treasurer of that county in accordance with rules adopted under this section. The owner or operator shall pay the fees levied by this division to the treasurer or such other officer of the municipal corporation or to the county treasurer each year upon the anniversary of the date of issuance of the owner's or operator's installation and operation permit during the term of that permit and any renewal permit issued under division (H) of section 3734.05 of the Revised Code or on the anniversary of the date of a permit by rule or the date on which the facility became exempt from hazardous waste facility installation and operation permit requirements under rules adopted by the director. If payment is late, the owner or operator shall pay an additional ten per cent of the amount of the fee for each month that the payment is late.

Moneys received by a municipal corporation under this division shall be paid into a special fund of the municipal corporation and used exclusively for the purposes of conducting reviews of applications for hazardous waste facility installation and operation permits for new or modified hazardous waste landfills located or proposed within the municipal corporation, conducting emergency response actions with respect to releases of hazardous waste from facilities located within the municipal corporation, monitoring operation of such hazardous waste facilities, and conducting waste management planning programs within the municipal corporation through

employees of the municipal corporation or pursuant to contracts entered into with persons or political subdivisions. Moneys received by a board of county commissioners under this division shall be paid into a special fund of the county and used exclusively for those purposes within the unincorporated area of the county through employees of the county or pursuant to contracts entered into with persons or political subdivisions.

(F) As used in this section, "treatment" or "treated" does not include any method, technique, or process designed to recover energy or material resources from the waste or to render the waste amenable for recovery. The fees levied by division (D) of this section do not apply to hazardous waste that is treated and disposed of on the same premises or by the same person.

(G) The director, by rules adopted in accordance with Chapters 119. and 3745. of the Revised Code, shall prescribe any dates not specified in this section and procedures for collecting and forwarding the fees prescribed by this section and may prescribe other requirements that are necessary to carry out this section.

The director shall deposit the moneys collected under divisions (C) and (D) of this section to the credit of the hazardous waste facility management fund, which is hereby created in the state treasury, except that the director shall deposit to the credit of the underground injection control fund created in section 6111.046 of the Revised Code moneys in excess of fifty thousand dollars that are collected during a fiscal year under division (C)(2) of this section from the fee levied on the disposal of hazardous waste by deep well injection at an on-site disposal facility that disposes of more than one hundred thousand tons of hazardous waste in a year.

The environmental protection agency may use moneys in the hazardous waste facility management fund for administration of the hazardous waste program established under this chapter and, in accordance with this section, may request approval by the controlling board on an annual basis for that use and for the purposes specified in sections 3734.19 to 3734.27 of the Revised Code.

If moneys in the fund that the agency uses in accordance with this chapter are reimbursed by grants or other moneys from the United States government, the grants or other moneys shall be placed in the fund.

AUTHENTICATED,
OHIO LEGISLATIVE SERVICE
COMMISSION
DOCUMENT #239630

Before the agency makes any expenditure from the fund other than for repayment of and interest on any loan made by the Ohio water development authority to the agency, the controlling board shall approve the expenditure.
