

Ohio Revised Code

Section 4723.431 Standard care arrangements.

Effective: September 30, 2021

Legislation: House Bill 110

(A)(1) An advanced practice registered nurse who is designated as a clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner may practice only in accordance with a standard care arrangement entered into with each physician or podiatrist with whom the nurse collaborates. A copy of the standard care arrangement shall be retained on file by the nurse's employer. Prior approval of the standard care arrangement by the board of nursing is not required, but the board may periodically review it for compliance with this section.

A clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner may enter into a standard care arrangement with one or more collaborating physicians or podiatrists. If a collaborating physician or podiatrist enters into standard care arrangements with more than five nurses, the physician or podiatrist shall not collaborate at the same time with more than five nurses in the prescribing component of their practices.

Not later than thirty days after first engaging in the practice of nursing as a clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner, the nurse shall submit to the board the name and business address of each collaborating physician or podiatrist. Thereafter, the nurse shall notify the board of any additions or deletions to the nurse's collaborating physicians or podiatrists. Except as provided in division (D) of this section, the notice must be provided not later than thirty days after the change takes effect.

(2) All of the following conditions apply with respect to the practice of a collaborating physician or podiatrist with whom a clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner may enter into a standard care arrangement:

(a) The physician or podiatrist must be authorized to practice in this state.

(b) Except as provided in division (A)(2)(c) of this section, the physician or podiatrist must be practicing in a specialty that is the same as or similar to the nurse's nursing specialty.

(c) If the nurse is a clinical nurse specialist who is certified as a psychiatric-mental health CNS by the American nurses credentialing center or a certified nurse practitioner who is certified as a psychiatric-mental health NP by the American nurses credentialing center, the nurse may enter into a standard care arrangement with a physician but not a podiatrist and the collaborating physician must be practicing in one of the following specialties:

(i) Psychiatry;

(ii) Pediatrics;

(iii) Primary care or family practice.

(B) A standard care arrangement shall be in writing and shall contain all of the following:

(1) Criteria for referral of a patient by the clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner to a collaborating physician or podiatrist or another physician or podiatrist;

(2) A process for the clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner to obtain a consultation with a collaborating physician or podiatrist or another physician or podiatrist;

(3) A plan for coverage in instances of emergency or planned absences of either the clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner or a collaborating physician or podiatrist that provides the means whereby a physician or podiatrist is available for emergency care;

(4) The process for resolution of disagreements regarding matters of patient management between the clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner and a collaborating physician or podiatrist;

(5) Any other criteria required by rule of the board adopted pursuant to section 4723.07 or 4723.50 of the Revised Code.

(C)(1) A standard care arrangement entered into pursuant to this section may permit a clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner to supervise services provided by a home health agency as defined in section 3740.01 of the Revised Code.

(2) A standard care arrangement entered into pursuant to this section may permit a clinical nurse specialist, certified nurse-midwife, or certified nurse practitioner to admit a patient to a hospital in accordance with section 3727.06 of the Revised Code.

(D)(1) Except as provided in division (D)(2) of this section, if a physician or podiatrist terminates the collaboration between the physician or podiatrist and a certified nurse-midwife, certified nurse practitioner, or clinical nurse specialist before their standard care arrangement expires, all of the following apply:

(a) The physician or podiatrist must give the nurse written or electronic notice of the termination.

(b) Once the nurse receives the termination notice, the nurse must notify the board of nursing of the termination as soon as practicable by submitting to the board a copy of the physician's or podiatrist's termination notice.

(c) Notwithstanding the requirement of section 4723.43 of the Revised Code that the nurse practice in collaboration with a physician or podiatrist, the nurse may continue to practice under the existing standard care arrangement without a collaborating physician or podiatrist for not more than one hundred twenty days after submitting to the board a copy of the termination notice.

(2) In the event that the collaboration between a physician or podiatrist and a certified nurse-midwife, certified nurse practitioner, or clinical nurse specialist terminates because of the physician's or podiatrist's death, the nurse must notify the board of the death as soon as practicable. The nurse may continue to practice under the existing standard care arrangement without a collaborating physician or podiatrist for not more than one hundred twenty days after notifying the board of the physician's or podiatrist's death.

(E) Nothing in this section prohibits a hospital from hiring a clinical nurse specialist, certified nurse-

midwife, or certified nurse practitioner as an employee and negotiating standard care arrangements on behalf of the employee as necessary to meet the requirements of this section. A standard care arrangement between the hospital's employee and the employee's collaborating physician is subject to approval by the medical staff and governing body of the hospital prior to implementation of the arrangement at the hospital.
