

Ohio Revised Code

Section 4928.643 Baselines for compliance with qualified renewable energy resource requirements.

Effective: September 12, 2014

Legislation: Senate Bill 310 - 130th General Assembly

(A) Except as provided in division (B) of this section and section 4928.644 of the Revised Code, the baseline for an electric distribution utility's or an electric services company's compliance with the qualified renewable energy resource requirements of section 4928.64 of the Revised Code shall be the average of total kilowatt hours sold by the utility or company in the preceding three calendar years to the following:

- (1) In the case of an electric distribution utility, any and all retail electric consumers whose electric load centers are served by that utility and are located within the utility's certified territory;
- (2) In the case of an electric services company, any and all retail electric consumers who are served by the company and are located within this state.

(B) Beginning with compliance year 2014, a utility or company may choose for its baseline for compliance with the qualified renewable energy resource requirements of section 4928.64 of the Revised Code to be the total kilowatt hours sold to the applicable consumers, as described in division (A)(1) or (2) of this section, in the applicable compliance year.

(C) A utility or company that uses the baseline permitted under division (B) of this section may use the baseline described in division (A) of this section in any subsequent compliance year. A utility or company that makes this switch shall use the baseline described in division (A) of this section for at least three consecutive compliance years before again using the baseline permitted under division (B) of this section.
