

Ohio Revised Code

Section 4939.0312 Consolidated requests.

Effective: August 1, 2018

Legislation: House Bill 478 - 132nd General Assembly

(A) A municipal corporation shall permit a person seeking to construct, modify, collocate, or replace more than one small cell facility or more than one wireless support structure within the jurisdiction of a single municipal corporation to file, at the person's discretion, a consolidated application for consent under section 4939.031 of the Revised Code for up to thirty small cell facilities requests in a single application or up to thirty wireless support structure requests in a single application and receive a single permit for the construction, modification, collocation, or replacement of the small cell facilities or wireless support structures. However, this single application may only address multiple small cell facilities or multiple wireless support structures if they each involve substantially the same type of small cell facilities or substantially the same type of wireless support structures. A municipal corporation may separately address small cell facility collocations or wireless support structures for which incomplete information has been received or which are denied.

(B) In the case of a consolidated application, the fees provided for in section 4939.0316 of the Revised Code may be cumulative. However, a municipal corporation, at its discretion, may opt to reduce such fees in order to encourage persons to submit consolidated applications.

(C) In the case of a consolidated application, each small cell facility or wireless support structure proposed to be constructed, modified, collocated on, or replaced shall constitute a separate request for consent for purposes of tolling the response deadline as authorized under section 4939.036 of the Revised Code. A request by a single operator for a new or replacement support structure and associated small cell facility constitutes one request.
