The department of rehabilitation and correction may enter into a contract with any person or with a political subdivision in which a state correctional institution is located under which an institution will provide water or sewage treatment services for the person or political subdivision if the institution has a water or sewage treatment facility with sufficient excess capacity to provide the services.

Any such contract shall include all of the following:

(B) The bases for calculating reasonable rates to be charged the person or political subdivision for potable water or for sewage treatment services and for adjusting the rates;

(C) All other provisions the department considers necessary or proper to protect the interests of the state in the facility and the purpose for which it was constructed.

All amounts due the department under the contract shall be paid to the department by the person or political subdivision at the times specified in the contract. The department shall deposit all such amounts in the state treasury to the credit of the correctional institution water and sewage treatment facility services fund, which is hereby created. The fund shall be used by the department to pay costs associated with operating and maintaining the water or sewage treatment facility.
