

Ohio Revised Code

Section 5501.52 Annual reports summarizing state and federal money spent on highway projects.

Effective: July 1, 1989

Legislation: House Bill 381 - 118th General Assembly

Not later than the thirty-first day of December of each year, the Ohio department of transportation shall submit reports to the president of the senate and the speaker of the house of representatives summarizing, by county and by project, the amounts of state and federal money spent on encumbered for highway projects during the preceding fiscal year. The summaries shall indicate whether a project is for new construction, reconstruction, repair, or maintenance; when it was commenced and when it was or is expected to be completed; the total amount that has been spent on the project; and what the total cost of the project will be when it is completed. Upon request, a copy of the summaries required by this section shall be made available to any county engineer or member of the general assembly.
