

Ohio Revised Code

Section 927.64 Notice of restricted or condemned nursery stock.

Effective: November 18, 1969

Legislation: Senate Bill 387 - 108th General Assembly

(A) If the director of agriculture or his authorized representative determines that a pest in or on any premises used for growing, storage, or sale of nursery stock is destructive or harmful, he shall:

(1) Notify the nurseryman, dealer, collector or person having charge of the premises, in writing, of the presence of such pest;

(2) Restrict the movement of such infested stock, or withhold such person's license or certificate until the premises are freed from such pest or until the pest has been brought under control to the satisfaction of the director.

(B) No person after receiving such notice shall ship, deliver, or cause to be shipped or delivered any restricted or condemned nursery stock from such premises.
