

Ohio Revised Code

Section 940.30 County commissioners hearing on proposed improvement.

Effective: March 24, 2021

Legislation: House Bill 340 - 133rd General Assembly

(A) On the date established for the hearing, the board of county commissioners shall conduct the hearing by doing both of the following:

(1) Presenting the project design, construction plans, schedule of damages, cost estimates, and estimated assessments for the proposed improvement as submitted by the board of supervisors of the applicable soil and water conservation district;

(2) Hear any comments offered by any landowner regarding the estimated assessments and proposed improvement.

(B) If necessary, the board of county commissioners may adjourn and continue the hearing on subsequent days as may be reasonable to consider additional information about the proposed improvement, make changes that will better accomplish the purpose and object of the proposed improvement, or allow all interested landowners to have an opportunity to comment on the proposed improvement.
