

Ohio Administrative Code

Rule 122:1-1-04 Recertification and reporting requirements.

Effective: February 10, 2014

(A) In order to retain the certification of a workable program certified other than on the basis of current federal certification, a municipal corporation shall submit two years after certification and every two years thereafter to the director of the development services agency the following items:

- (1) A statement of any changes in its workable program;
- (2) A list of all projects that are in process including but not limited to those under construction currently subject to a tax exemption or otherwise deemed active by the applicant during the previous two year period on a form provided by the director of the development services agency; and
- (3) A list of all community urban renewal corporations that have been created as part of an "Impacted Cities" project and formerly recognized by the applicant regardless of whether they are currently involved in an active project.

If there has been no substantial change with respect to a particular element, a statement to that effect may be sufficient, but reasonable supporting documentation and information may be required upon the request of the director of the development services agency.

(B) Statements shall be due thirty days prior to the two year anniversary date and thirty days prior to every subsequent two year anniversary date of the date of the director of the development service agency's original certification.

(C) If a municipal corporation that is certified as an impacted city under Chapter 1728. of the Revised Code fails to provide the materials required pursuant to this rule, the director shall determine that such failure to provide recertification materials renders that municipal corporations workable program out of compliance with the criteria of rule 122:1-1-02 of the Administrative Code. The director of the development services agency shall send to the executive officer of the municipal corporation notice that the workable program of the municipal corporation is suspended effective

upon receipt of the notice. While such suspension is in place, a municipal corporation may not undertake any action or project with a community urban redevelopment corporation pursuant to section 1728.07 of the Revised Code or avail itself of any of the other rights or authorities previously conferred upon it by virtue of its status as an impacted city under Chapter 1728. of the Revised Code.

(D) If a municipal corporation is suspended pursuant to paragraph (C) of this rule, it may have such suspension lifted if it provides to the director of the development services agency all of the materials required under this rule within ninety days of its receipt of the notice of suspension. If a municipal corporation is suspended pursuant to this rule and fails to provide the materials required under this rule within ninety days of its receipt of the notice of suspension, it shall be subject to decertification pursuant to rule 122:1-1-05 of the Administrative Code.
