

Ohio Administrative Code

Rule 3301-11-10 Payment of scholarship amounts.

Effective: June 15, 2023

(A) Payment of scholarship amounts shall be made by warrant of the auditor of state or other method authorized in the Revised Code made payable in the name of the parent, legal guardian, custodian of the student, or if the student is at least eighteen years of age in the name of the student, and the chartered nonpublic school in which the student is enrolled. Warrants shall be mailed to the address provided by the chartered nonpublic school.

(B) The actual amount of each scholarship is made in accordance with section 3317.022 of the Revised Code. In cases where discounts are offered for multiple students from the same family, and not all students in the same family are scholarship recipients, the scholarship amount shall be the lowest tuition to which the family is entitled.

(C) In the case where a child transfers during the course of the school year to another chartered nonpublic school with a different tuition, the department will adjust payments in accordance with section 3317.022 of the Revised Code.

(D) In the case where overpayments are made on behalf of a participating student, the department shall inform the chartered nonpublic school of the amount of the overpayment, and the chartered nonpublic school shall refund the amount to the department. The amount of the refund shall be calculated based on the period of attendance at the chartered nonpublic school relative to the minimum number of hours the school is open for instruction with pupils in attendance, as described in section 3313.48 of the Revised Code.

(E) In the case where a student withdraws or is expelled from the chartered nonpublic school, or where a student's eligibility to continue to receive a scholarship is terminated pursuant to paragraph (A) of rule 3301-11-09 of the Administrative Code, payment of the scholarship amount will be prorated based on the number of days the student was enrolled at the chartered nonpublic school relative to the minimum number of hours the school is open for instruction with pupils in attendance, as described in section 3313.48 of the Revised Code. Funded enrollment would end as

of the last day of the student's attendance, or the effective date of the student's termination, whichever is earlier.

(F) In the case where a scholarship is awarded post the providers start date, the scholarship is prorated from the scholarship award date through the end of the school year. The parent is financially responsible for all fees accrued with the provider prior to the scholarship award date. Once awarded, the actual amount of the scholarship will be prorated in accordance with this rule and section 3317.022 of the Revised Code.
