

## Ohio Administrative Code Rule 3335-111-08 Organization of the CHRI medical staff. Effective: December 29, 2023

(A) The chief executive officer.

(1) Method of appointment:

The chief executive officer shall be appointed by the board of trustees of the Ohio state university upon recommendation of the president, executive vice president for health sciences, and the vice president for health services following consultation with the medical center board in accordance with university bylaws, rules and regulations. The chief executive officer shall be a member of the attending medical staff of the CHRI.

(2) Responsibilities:

The chief executive officer shall be responsible for the conduct of teaching, research, and CHRI service activities of the facility, including continuing compliance with all appropriate quality assurance standards, ethical codes, or other monitoring or regulatory requirements. The chief executive officer shall be a member of all committees of the CHRI.

(B) The director of medical affairs (physician-in-chief/chief medical officer of the James cancer hospital).

(1) Method of appointment:

The director of medical affairs shall be appointed by the executive vice president for health sciences upon recommendation by the chief executive officer of the James cancer hospital. The director of medical affairs is the physician-in-chief and shall be the chief medical officer of the CHRI and must be a member of the attending medical staff of the CHRI.

(2) Responsibilities:

The director of medical affairs shall report to the chief executive officer and the Wexner medical center board for the quality of patient care provided in the CHRI. The director of medical affairs shall assist the chief executive officer in the administration of medical affairs including quality assurance and credentialing. In addition, the director of medical affairs determines initial medical staff category appointments, reappointments and any changes in categories of the medical staff.

(C) The chief medical officer of the Ohio state university medical center.

The chief medical officer of the Ohio state university medical center is the senior medical officer for the medical center with the responsibility and authority for all health and medical care delivered at the medical center. The chief medical officer is responsible for overall quality improvement and clinical leadership throughout the medical center, physician alignment, patient safety and medical staff development. The appointment, scope of authority, and responsibilities of the chief medical officer shall be as outlined in the Ohio state medical center board bylaws. The director of medical affairs will work collaboratively with the chief medical officer and medical directors of each hospital of the medical center for the: coordination and supervision of patient care and clinical activities; responsibility for the clinical organization of his or her respective hospital; and to establish priorities, jointly with the chief executive officer or executive director of his or her respective hospital, for capital medical equipment, clinical space, and the establishment of new clinical programs, or the revision of existing clinical programs.

(D) The chief quality officer of the Ohio state university medical center.

The chief quality and patient safety officer of the Ohio state university medical center is referred to herein university bylaws as the chief quality officer. The chief quality officer reports to the chief medical officer. The chief quality officer and works collaboratively with clinical leadership of the medical center, including medical director of quality for the CHRI, director of medical affairs for the CHRI, nursing leadership and hospital administration. The chief quality officer provides leadership in the development and measurement of the medical centers approach to quality, patient safety and reduction of adverse events. The chief quality officer communicates and implements strategic, operational and programmatic plans and policies to promote a culture where patient safety is an important priority for medical and hospital staff.

(E) Medical director of credentialing.

The medical director of credentialing for the James cancer hospital oversees the process for the credentialing of practitioners applying for membership and/or clinical privileges at the James cancer hospital. The medical director of credentialing shall provide guidance on specific practitioner application or privileging concerns as raised pursuant to university bylaws and shall recommend practitioners for membership and/or privileges at the James cancer hospital and facilitate the process for approving such membership and granting of clinical privileges.

(F) Medical director, James surgical services.

The medical director, James surgical services has oversight of all James designated perioperative services and procedural suites. Working collaboratively with the administrator of perioperative services, the medical director, James surgical services facilitates the timely sharing of OR resources (including personnel and equipment) across the medical center in order to maximize the efficiency of OR services. The medical director, James surgical services works with clinical service lines and clinical leadership to coordinate OR services in a manner that enhances the quality of care and safety of services for patients. The medical director, James surgical services reports to the director of medical affairs of the James.

(G) Professional assignments.

Each member of the attending, associate attending, clinical, limited, physician scholar and honorary staff shall be assigned to a CHRI division and/or department by the chief executive officer upon the recommendation of the appropriate academic department chairperson and the credentials committee.

Appointment to a specific department and/or division is based on the clinical specialty of the applicant for medical staff membership. Each department and/or division is headed by a department chairperson or division director who has the responsibility to oversee all research and clinical activities conducted by members of the department and/or division. Specifically, the department chairperson or division director shall be responsible for the following: the development and implementation of policies and procedures that guide and support the provision of service;

recommendations re: staffing needs and clinical privileges for all members appointed to the department and/or division; the orientation and continuing surveillance of the professional performance of all department and/or division members; recommendation for space and other resources needed.

(H) Clinical department chief.

(1) Qualifications and responsibilities of the chief of the clinical department. The academic department chair shall ordinarily serve also as the chief of the clinical department. Each clinical department chief shall be qualified by education and experience appropriate to the discharge of the responsibilities of the position. Each clinical department chief must be board certified by an appropriate specialty board or must establish comparable competence. The chief of the clinical department must be a medical staff member at the Ohio state university hospitals. Such qualifications shall be judged by the respective dean of the colleges of medicine or dentistry. Qualifications for chief of the clinical department generally shall include recognized clinical competence, sound judgment and well-developed administrative skills.

(2) Procedure for appointment. Appointment or reappointment of chief of the clinical department shall be made by the dean of the respective colleges of medicine or dentistry in consultation with elected representatives of the medical staff and the chief medical officer of the Ohio state university medical center.

(3) Term of appointment of the chief of the clinical department. The term of the appointment of the chief of the clinical department shall be concurrent with the chiefs academic appointment but shall be no longer than four years. Prior to the end of said four-year term, a review shall be conducted by the dean of the college of medicine and such review shall serve as the basis for the recommendation for reappointment pursuant to paragraph (D)(2) of this rule.

(4) Duties of the chief of the clinical department: Each clinical department chief is responsible for the following:

(a) Clinically related activities of the department;

(b) Administratively related activities of the department, unless otherwise provided by the hospital;

(c) Continuing surveillance of the professional performance of all practitioners in the department who have delineated clinical privileges;

(d) Recommending to the medical staff the criteria for clinical privileges that are relevant to the care provided in the department;

(e) Recommending clinical privileges for each practitioner of the department based on relevant training and experience, current appraised competence, health status that does not present a risk to patients, and evidence of satisfactory performance with existing privileges;

(f) Assessing and recommending to the relevant hospital authority off-site sources for needed patient care, treatment, and services not provided by the department or the hospital;

(g) The integration of the department or service into the primary functions of the hospital, developing services that complement the medical centers mission and plan for clinical program development;

(h) The coordination and integration of interdepartmental and intradepartmental services;

(i) The development and implementation of policies and procedures that guide and support the provision of care, treatment, and services. This includes the development, implementation, enforcement and updating of departmental policies and procedures that are consistent with the hospitals mission. The clinical department chief shall make such policies and procedures available to the medical staff;

(j) The recommendations for a sufficient number of qualified and competent persons to provide care, treatment, and services, including call coverage for continuous high quality and safe care;

(k) The determination of the qualifications and competence of department or service personnel who are not licensed practitioners and who provide patient care, treatment, and services;

(1) The continuous assessment and improvement of the quality of care, treatment, and services;

- (m) The maintenance of quality control programs, as appropriate;
- (n) The orientation and continuing education of all persons in the department or service;
- (o) Recommending space and other resources needed by the department or service; and

(p) Hold regular clinical department meetings and ensure open lines of communication are maintained in the clinical department. The agenda for the meetings shall include, but not be limited to, a discussion of the clinical activities of the department and communication of the decisions of the medical staff administrative committee. Minutes of the departmental meetings, including a record of attendance, shall be kept in the clinical department.
