

Ohio Administrative Code Rule 3772-9-01 Definitions.

Effective: September 27, 2021

The following words and terms, when used in agency 3772 of the Administrative Code with respect to casino gaming, have the following meanings unless the context indicates otherwise:

(A) "Electronic gaming equipment" means all of the following:

(1) Slot machines or any component parts material to casino gaming activity, including random number generators, all game media, and progressive controllers;

(2) Mechanical or electromechanical devices used with live table games or electronic table games, including items using radio frequency identification, shuffling devices, and progressive controllers;

(3) Any computer systems or software used in the conduct or monitoring of casino gaming activity, including systems or software used for system-to-system, game-to-game, or intra-device communication, or any equivalent thereof;

(4) Electronic or electromechanical devices used to account for casino gaming assets, including redemption kiosks and ticket validation equipment; and

(5) Any other device, software, hardware or other technology that the executive director determines may affect the integrity of casino gaming.

(B) "Redemption kiosk" means

(1) Any device that validates and exchanges cashless wagering instruments for currency; or

(2) To provide currency for payment of gaming transactions requiring a manual payout.
