

Ohio Revised Code

Section 3705.20 Fetal death certificate.

Effective: June 3, 2014

Legislation: House Bill 95 - 130th General Assembly

(A) The fetal death of the product of human conception of at least twenty weeks of gestation shall be registered on a fetal death certificate.

On application of either parent, the fetal death of the product of human conception prior to twenty weeks of gestation shall be registered on a fetal death certificate, except that the fetal death certificate shall not list the cause of death.

The parent shall include with the application a copy of the statement required by division (B)(1) of section 3727.16 or division (B)(1) of section 4731.82 of the Revised Code. If the father submits the application, he shall also include with it a signed and notarized document from the mother attesting that she voluntarily provided the father with a copy of the statement.

A fetal death certificate for the product of human conception prior to twenty weeks gestation is not proof of a live birth for purposes of federal, state, and local taxes.

(B) The product of human conception of at least twenty weeks of gestation that suffers a fetal death occurring in Ohio shall not be interred, deposited in a vault or tomb, cremated, or otherwise disposed of by a funeral director or other person until a fetal death certificate or provisional death certificate has been filed with and a burial permit is issued by the local registrar of vital statistics of the registration district in which the fetal death occurs, or the body is found.

A burial permit for the product of human conception that suffers a fetal death prior to twenty weeks of gestation shall be issued by the local registrar of vital statistics of the registration district in which the fetal death occurs if either parent files a fetal death certificate with that registrar.

(C)(1) The department of health and the local registrar shall keep a separate record and index record of fetal death certificates.

(2) The personal or statistical information on the fetal death certificate shall be obtained by the funeral director or other person in charge of interment or cremation from the best qualified persons or sources available.

(D) When a burial permit is issued under division (B) of this section for the product of human conception of at least twenty weeks of gestation that suffers a fetal death, the local registrar shall inform the parent or parents listed on the fetal death certificate or provisional death certificate of the option of applying for a certificate that is issued under division (B)(3) of section 3705.23 of the Revised Code.
