Information Requirements for  
Infrastructure Improvement Surcharge Filings  
Case No. 13-234-WS-ORD

List infrastructure provision for depreciation by eligible related plant account and by month. Such infrastructure is limited to what is identified above under Schedule 2, Plant Additions. Such costs must be traceable directly to the general ledger and/or continuing property records.

(5) Schedule 5 - Annualized Depreciation Associated with Additions

Provide the most recent balance of eligible plant additions by major property grouping and account from Schedule 2, Plant Additions, as required to compute depreciation expense. Also, include all applicable current book accrual rates.

(6) Schedule 6 - Annualized Reduction in Depreciation for Retirements

Provide all information as requested on this schedule. This includes the most recent original cost balance of retired plant, of which there is an eligible replacement, by major property grouping and account from Schedule 3, Original Cost Retired, as required to compute depreciation expense. Also, include all applicable current book accrual rates.

(7) Schedules 7a and 7b - Rate of Return

If the date certain proposed in this proceeding is not later than three years from the date that the company's existing rates and tariffs went into effect, prepare Schedule 7 on the basis of the company's last rate case. If the time exceeds three years, prepare a proposed rate of return summary schedule as of the date certain or the most recent available historic calendar quarter showing the calculation of the weighted average cost of capital as illustrated in Schedule 7, lines 1-4.

Also, provide supporting schedules as of the date certain or the most recent available historic calendar quarter for the following:

(8) Schedules 8a and 8b - Net Operating Income Return on Rate Base

Schedule 8, with the supporting sub-schedule, calculates the operating income return on rate base using operating income for the year ending the same month as that used for the determination of rate base balance.

Surcharges for infrastructure improvements will be limited to the extent that they will not be expected to result in excess profits being earned by the company, excess profits being defined as returns on equity from regulated activities in excess of those described above. If a surcharge is granted by the Commission, the company's actual and pro forma profitability will be reviewed on an annual basis to determine whether a reduction or elimination of such surcharge or subsequent surcharges is required by this restriction.

During the time the surcharge is in effect, the company will file Schedule 8 annually under the surcharge docket and concurrent with the company's filing of its annual report to the Commission using information for the most recent calendar year. Should the surcharge ultimately be eliminated, it will no longer be necessary to provide this information.

(9) Schedule 9 - Tariffs

Provide a copy of the current tariff schedule and a copy of the proposed tariff surcharge schedule, marked up and coded to illustrate all proposed changes.

(10) Schedule 10 - Revenue Distribution
