

## Ohio Administrative Code

### Rule 1501:10-2-17 Records.

Effective: June 27, 2024

---

(A) A record is to be made of all emissions tests, preoperational examinations, and maintenance and repairs of all equipment in a mine's complete diesel-powered equipment package.

(B) Compliance with this rule is necessary for all records made pursuant to this rule.

(C) Written certification. The person performing the emissions test, preoperational examination, maintenance or repair is to certify by date, time, engine hour reading and signature that the emissions test, examination, maintenance or repair was made.

(D) Results of tests and examinations. Records of emissions tests and preoperational examinations are to include the specific results of such tests and examinations.

(E) Records of maintenance and repairs are to include the work that was performed, any fluids or oil added, parts replaced or adjustments made, and the results of any subsequently conducted emissions testing.

(F) Retention of pre-operational examination record. Records of the pre-operational examinations conducted pursuant to paragraph (A) of rule 1501:10-2-18 of the Administrative Code are to be retained for the previous one-hundred-hour maintenance cycle.

(G) Certain records to be countersigned. Records of emissions tests, one-hundred-hour maintenance tests, and repairs are to be countersigned once each week by either the certified mine electrician or certified mine foreperson.

(H) Other records retention. All records governed by this rule, except those listed in paragraph (F) of this rule, are to be retained for at least one year at a surface location at the mine, and made available for inspection by the chief or his or her representative and by miners and their representatives.
