

## Ohio Administrative Code Rule 1501:46-7-08 Metal detectors prohibited.

Effective: May 8, 2020

---

No person shall use or offer for use any device for the purpose of locating or removing any metallic objects or any other objects of value from any lands or waters of the division without first having obtained written permission from the area manager, except that sand beaches shall be exempt from the prohibition.

(A) No person shall use or offer for use any device for the purpose of locating or removing any metallic objects or any other objects of value from any lands or waters of the division without first having obtained written permission from the area manager.

(B) Notwithstanding paragraph (A) of this rule, metal detecting is permitted without written permission on sand beach area and mowed areas, except mowed areas associated with a golf course, rental facility, or campground. Any area disturbed by the activity shall immediately be returned to a condition as close to undisturbed as possible.
