

Ohio Administrative Code Rule 1501:9-3-13 Property rights unaffected.

Effective: June 1, 1982

The purpose of Chapter 1501:9-3 of the Administrative Code is to prescribe minimum construction and operation requirements for saltwater injection and annular disposal wells so as to protect surface and subsurface soils and waters of the state. Thus, the authorization or failure to authorize a saltwater injection or annular disposal well should not be construed so as to alter or amend any common law property rights or responsibilities.
