

Ohio Administrative Code

Rule 164-2-23 Stream restoration and property ownership.

Effective: February 15, 2024

Clean Ohio funding may be provided for stream restoration projects, if the applicant is otherwise an eligible applicant pursuant to the clean Ohio program. If the project is to be performed on real property, owned by a public entity, the clean Ohio deed restrictions must be recorded on the property prior to providing funding. If the project is to be performed on real property owned by a person or a non-public entity, a clean Ohio easement which shall be in a form acceptable to the director, relating to the project, must be recorded on the property prior to providing funding. The recorded deed restriction or easement shall be provided to the clean Ohio program representative responsible for oversight of the project, before any restoration work commences.
