There may be other circumstances that require substantial amounts of time or produce excessive stress that would justify granting an extension of one year. In such cases, the TCPL faculty member may apply in writing to the provost, who in consultation with the department chair, the program director (when appropriate), the dean of the regional campuses (when appropriate), and the divisional dean, will determine whether such an extension should be granted. renewed beyond the upcoming academic year.)

TCPL faculty appointments may be terminated for cause at any time by the provost. Chairs/program directors and deans may recommend termination by providing written notice specifying the reasons for the proposed termination, along with supporting documentation, to both the faculty member and the provost.

The faculty member will receive an initial written notice specifying the reasons for the proposed termination from the provost along with supporting documentation. The notice will be accompanied by an opportunity for the faculty member to be heard either in a meeting with the provost or provosts designee or to respond in writing, at the faculty members election. Faculty members are entitled to be accompanied by an advisor of their choice (including legal counsel) to the meeting with the provost.

If, following the meeting or receipt of the faculty members written response, the provost determines that termination is not appropriate, the provost may impose one or more disciplinary sanctions and/or specify the terms and conditions under which the faculty member may remain employed. If the provost determines that termination is appropriate, the provost shall provide a written notice stating the reasons for termination. The decision of the provost is final.

(J) Position elimination

Upon the written recommendation of the chair/program director and/or with the written approval of the dean and provost, TCPL faculty positions may be eliminated due to budget constraints (to include lack of funds and/or lack of work) or reorganization. TCPL faculty at the rank of associate or above are entitled to at least one full academic years advance written notice of position elimination.

If practicable, after considering the comprehensive instructional needs of the department, the chair should first seek to eliminate per credit hour, part-time and temporary faculty before eliminating lecturers and teaching faculty.

The severance pay program is intended to provide financial assistance during a period of employment transition. Eligible faculty members will receive one week of severance pay for each completed academic year of continuous Miami service beyond five academic years. With the approval of the department chair, program director (as appropriate), dean and provost, a TCPL faculty member may credit up to three years of prior Miami service at the assistant rank toward the four year promotion period.
