

Ohio Administrative Code Rule 3358:3-1-06 Public Records Policy.

Effective: April 6, 2015

It is the policy of Southern state community college that openness leads to a better informed citizenry, which leads to better government and better public policy. It is the policy of Southern state community college to strictly adhere to the state's Public Records Act. All exemptions to openness are to be construed in their narrowest sense and any denial of public records in response to a valid request must be accompanied by an explanation, including legal authority, as outlined in the Ohio Revised Code. If the request is in writing, the explanation must also be in writing.

(A) Public records

This office, in accordance with the Ohio Revised Code, defines records as including the following: Any document - paper, electronic (including, but not limited to, e-mail), or other format - that is created or received by, or comes under the jurisdiction of a public office that documents the organization, functions, policies, decisions, procedures, operations, or other activities of the office.

All records of Southern state community college are public unless they are specifically exempt from disclosure under the Ohio Revised Code. Under Ohio law, a record (or portion of a record) may still be withheld from release because state or federal law makes the record or a portion thereof confidential.

The college will respond to a public records request within a reasonable amount of time after receiving the request.

(B) Directory information

Southern state community college has defined their directory information as follows:

(1) Name

- (2) Dates of attendance
- (3) Honors and awards received
- (4) Degree(s)/certificate(s) awarded, if any
- (5) Full-time or part-time enrollment status
- (6) Address
- (7) City of residence
- (8) Participation in officially recognized sports and activities
- (9) Photograph

However, releasing directory information to any person or group for use in a profit-making plan or activity is prohibited.

(C) Policy

It is the policy of Southern state community college that, as required by Ohio law, records will be organized and maintained so that they are readily available for inspection and copying (See paragraph (F) of this rule for the e-mail record policy). Record retention schedules are to be updated regularly and posted prominently.

(D) Records request

With the exception of student records, each request for public records should be evaluated for a response using the following guidelines:

- (1) Although no specific language is required to make a request, the requester must at least identify the records requested with sufficient clarity to allow the public office to identify, retrieve, and review

the records. If it is not clear what records are being sought, the records custodian must contact the requester for clarification, and should assist the requester in revising the request by informing the requester of the manner in which the office keeps its records.

(2) The requester does not have to put a records request in writing, and does not have to provide his or her identity or the intended use of the requested public record. It is this office's general policy that this information is not to be requested.

(3) Public records are to be available for inspection during regular business hours, with the exception of published holidays or closings. Public records must be made available for inspection promptly. Copies of public records must be made available within a reasonable period of time. "Prompt" and "reasonable" take into account the volume of records requested, the proximity of the location where the records are stored, and the necessity for any legal review of the records requested.

(4) Each request should be evaluated for an estimated length of time required to gather the records. Routine requests for records should be satisfied immediately if feasible to do so. Routine requests include, but are not limited to, meeting minutes (both in draft and final form), budgets, salary information, forms and applications, personnel rosters, etc. If fewer than twenty pages of copies are requested or if the records are readily available in an electronic format that can be e-mailed or downloaded easily, these should be made as quickly as the equipment allows.

All requests for public records must either be satisfied or be acknowledged in writing by Southern state community college within three business days following the office's receipt of the request. If a request is deemed significantly beyond "routine," such as seeking a voluminous number of copies or requiring extensive research, the acknowledgement must include the following:

(a) An estimated number of business days it will take to satisfy the request.

(b) An estimated cost if copies are requested.

(c) Any items within the request that may be exempt from disclosure.

(5) Any denial of public records requested must include an explanation, including legal authority. If

portions of a record are public and portions are exempt, the exempt portions are to be redacted and the rest released. If there are redactions, each redaction must be accompanied by a supporting explanation, including legal authority.

(E) Costs for public records

Those seeking public records will be charged only the actual cost of making copies.

(1) The charge for paper copies is two cents per page.

(2) The charge for downloaded computer files to a compact disc is one dollar per disc.

(3) There is no charge for documents e-mailed.

(4) Requesters may ask that documents be mailed to them. They will be charged the actual cost of the postage and mailing supplies, paper copies and/or discs.

(F) E-mail

Documents in electronic mail format are records as defined by the Ohio Revised Code when their content relates to the business of the office. E-mail is to be treated in the same fashion as records in other formats and should follow the same retention schedules.

(1) Records in private e-mail accounts used to conduct public business are subject to disclosure, and all employees or representatives of this office are instructed to retain their e-mails that relate to public business (see paragraph (A) of this rule, public records) and to copy them to their business e-mail accounts and/or to the offices records custodian.

(2) The records custodian is to treat the e-mails from private accounts as records of the public office, filing them in the appropriate way, retaining them per established schedules and making them available for inspection and copying in accordance with the Public Records Act.
