Ohio Administrative Code

Rule 3361:70-5-02 Parking: administration.

Effective: September 17, 2021

(A) The use of a motor vehicle on university property is a privilege, not a right, and is made available only under the university rules, regulations and accompanying policies as set forth in rule 3361:70-5-01 of the Administrative Code.

(B) Responsibility for the administration of these rules, regulations and accompanying policies as they apply to the parking of motor vehicles rests with parking services. The university police division of public safety assists parking services in the enforcement of regulations and has primary responsibility for the enforcement of regulations applying to moving traffic.

(C) No individual or department other than parking services may grant parking privileges for their respective areas, except as may be specifically delegated in writing by parking services. All parking permits are regulated by the university and the university reserves the right:

(1) To refuse issuance of a parking permit.

(2) To change parking assignments as deemed necessary.

(3) To restrict the use of any parking space, structure, or surface lot at any time.

(4) To determine hours of control.

(5) To determine mode of operation of any area at any time.

(6) To revoke or recall a parking permit.

(D) The university rules and regulations supersede all previous rules of the university with respect to the control of vehicular traffic and parking on university property and are subject to change. A complete, up-to-date edition of these regulations may be found on the university of Cincinnati's website.

(E) Changes or modifications of university vehicle regulations and accompanying policies will be on parking services website. Motor vehicle operators are responsible for being aware of changes to university vehicle rules, regulations, and accompanying policies and abiding by them. Rule, regulation, and accompanying policy changes will be announced prior to the effective date.
