

Ohio Administrative Code

Rule 3517-1-15 Reconsideration of commission decisions.

Effective: [May 2, 1996](#)

(A) No party adversely effected by a finding of the commission may request reconsideration of that finding unless the commission has included a provision which specifically authorizes the commission to reconsider its finding.

(B) Any party adversely effected by a finding of the commission which contains such a provision may request reconsideration of the finding by submitting a letter requesting that the commission reconsider its finding within ten days of the mailing of the notice of disposition by commission staff.

(C) In order to assure just results, staff attorney to the commission may recommend that the commission reconsider a finding if, in the reasonable discretion of the staff attorney, that finding of the commission did not give proper due process or imposed an undue burden on a party before the commission. However, no reconsideration shall be recommended under this provision and the commission shall not reconsider any finding after a date which is one year after the date on which the commission made its finding.
