

## Ohio Administrative Code

### Rule 3701:1-44-17 Conditions of specific licenses issued pursuant to rule 3701:1-44-16 of the Administrative Code.

Effective: December 10, 2015

---

Each person licensed pursuant to rule 3701:1-44-16 of the Administrative Code shall:

- (A) Maintain the level of quality control required by the license in the manufacture of the industrial product or device, and in the installation of the depleted uranium into the product or device;
- (B) Label or mark each unit to:
  - (1) Identify the manufacturer or initial transferor of the product or device and the number of the license under which the product or device was manufactured or initially transferred, the fact that the product or device contains depleted uranium, and the quantity of depleted uranium in each product or device; and
  - (2) State that the receipt, possession, use, and transfer of the product or device are subject to a general license or the equivalent and the rules of the state of Ohio or the United States nuclear regulatory commission or an agreement state;
- (C) Assure that the depleted uranium before being installed in each product or device has been impressed with the following legend clearly legible through any plating or other covering: "Depleted Uranium";
- (D) Furnish a copy of the general license contained in rule 3701:1-44-13 of the Administrative Code or a copy of the United States nuclear regulatory commission's or agreement state's equivalent regulation, and a copy of form HEA 5115 or the United States nuclear regulatory commission's or agreement state's equivalent certificate to each person whom the licensee transfers source material in a product or device for use pursuant to the general license contained in rule 3701:1-44-13 of the Administrative Code.
- (E) Report to the director, by an appropriate method listed in rule 3701:1-44-05 of the

Administrative Code, United States nuclear regulatory commission, or agreement state, all transfers of industrial products or devices to persons for use under the general license in rule 3701:1-44-13 of the Administrative Code. Such report shall identify each general licensee by name and address, an individual by name and/or position who may constitute a point of contact between the director and the general licensee, the type and model number of device transferred, and the quantity of depleted uranium contained in the product or device. The report shall be submitted within thirty days after the end of each calendar quarter in which such a product or device is transferred to the generally licensed person. If no transfers have been made to persons generally licensed under rule 3701:1-44-13 of the Administrative Code during the reporting period, the report shall so indicate.

(F) Keep records showing the name, address, and a point of contact for each general license to whom the person transfers depleted uranium in industrial products or devices for use pursuant to the general license provided in rule 3701:1-44-13 of the Administrative Code or equivalent regulations of the United States nuclear regulatory commission or agreement state. The records must be retained for three years from the date of transfer and must show the date of each transfer, the quantity of depleted uranium in each product or device transferred, and compliance with the report requirements of this rule.
