

Ohio Administrative Code

Rule 3745-1-52 Numeric chemical criteria for waste water discharges to wetlands.

Effective: October 10, 2024

For the purposes of establishing waste water discharge permit limits for waste water discharges to wetlands pursuant to Chapter 6111. of the Revised Code, numeric chemical criteria associated with the "warmwater aquatic life habitat" use designation, as specified in this chapter of the Administrative Code, apply at the outfall prior to discharge to the wetland. The applicant may submit a request, in writing, to the director to use alternative criteria. The director may approve the request if the use of alternative criteria is deemed not to be injurious to the wetland's designated use and assigned category, as specified in rule 3745-1-54 of the Administrative Code.
