

Ohio Administrative Code

Rule 3745-150-12 Obligations of assistance recipients.

Effective: April 24, 2025

(A) A recipient of Ohio water pollution control loan fund financial assistance shall carry out the implementation of the assistance proposal and the disposal system, or the overall activities, of which the assistance proposal is a part, including mitigation measures to reduce environmental impacts, as described in the approved facilities plan or other assistance proposal plan, the environmental assessment, the limited environmental review document and the finding of no significant impact.

(B) The director may require implementation of such actions through special or general assistance conditions in the assistance proposal's financing agreement and special conditions in applicable plan approvals, permits to install, or other administrative actions. If, in the judgment of the director, a recipient fails to comply with this rule, the director may pursue all available remedies to achieve compliance. Non-compliance is grounds for default by the recipient of the financial assistance agreement.
