

Ohio Administrative Code Rule 3745-50-41 Application for a permit.

Effective: [March 24, 2017](#)

(A) Permit application. Any person who is required to have a permit (including new applicants and permittees with expiring permits) shall complete, sign, and submit an application to the director as described in Chapter 3745-50 of the Administrative Code. Persons currently authorized with a permit by rule under paragraph (C) of rule 3745-50-40 of the Administrative Code shall submit to the director a "Part B" application for a hazardous waste facility installation and operation permit for the facility within one hundred eighty days after the director requests the application or upon a later date if the owner or operator of the facility demonstrates to the director good cause for the late submittal. Persons covered by paragraph (A) of rule 3745-50-46 of the Administrative Code need not apply. Procedures for applications, issuance, and administration of emergency permits are in rule 3745-50-57 of the Administrative Code.

(B) Who applies? When a facility or activity is owned by one person but is operated by another person, the operator and owner shall sign the permit application.

(C) Completeness.

(1) The director shall not issue a permit before receiving a complete application for a permit except for permits by rule, or emergency permits. An application for a permit (form 8700-23, the "Part A" permit application) is complete when the director receives an application form and any supplemental information which are completed to the director's satisfaction. An application for a permit is complete notwithstanding the failure of the owner or operator to submit the exposure information described in paragraph (E) of rule 3745-50-40 of the Administrative Code. The director may deny a permit for the active life of a hazardous waste management facility or unit before receiving a complete application for the permit.

(2) The completeness of any application for a permit shall be judged independently of the status of any other permit application or permit for the same facility.

(D) Information requirements. All applicants for permits shall provide the following information to the director:

- (1) The activities conducted by the applicant which require the obtaining of a permit.
- (2) Name, mailing address, and location of the facility for which the application is submitted.
- (3) Up to four standard industrial codes which best reflect the principal products or services provided by the facility.
- (4) The operator's name, address, telephone number, ownership status, and status as federal, state, private, public, or other entity.

 - (c) Each well where fluids from the facility are injected underground.
 - (d) Those wells, springs, other surface water bodies, and drinking water wells listed in public records or otherwise known to the applicant within one-quarter mile of the facility property boundary.

- (7) A brief description of the nature of the business.

- (8) The information requested in "Part A" and "Part B" of the permit application, and if applicable, in rule 3745-50-38 of the Administrative Code.
