

Ohio Administrative Code Rule 3745-535-670 Ten year design update.

Effective: June 15, 2024

(A) Upon every tenth anniversary of the effective date of the initial permit to install issued for the facility pursuant to Chapter 3734. of the Revised Code, the owner or operator shall submit to Ohio EPA an analysis comparing the unconstructed components of the facility to the standards established in the current version of rule 3745-27-08 of the Administrative Code.

(B) If the director determines that the unconstructed components identified pursuant to paragraph (A) of this rule are no longer consistent with the standard established in the current version of rule 3745-27-08 of the Administrative Code as applied to a new facility, the director may require the owner or operator to obtain the appropriate authorization from Ohio EPA to make the necessary changes to the facility to bring the facility into compliance with the standards in the current version of rule 3745-27-08 of the Administrative Code. If a permit to install application is necessary, the director shall not apply the criteria outlined in paragraph (H) of rule 3745-27-07 of the Administrative Code to the unconstructed components of the facility that were approved in the effective permit to install.
