

Ohio Administrative Code

Rule 3745-580-111 Standards for a non-registered scrap tire transporter.

Effective: June 30, 2023

Any person excluded from obtaining a scrap tire transporter registration certificate pursuant to rule 3745-580-105 of the Administrative Code shall comply with the following:

(A) Transport scrap tires only to the following locations:

(1) A scrap tire collection, scrap tire storage, scrap tire monocell, scrap tire monofill, or scrap tire recovery facility licensed in accordance with section 3734.81 of the Revised Code.

(2) A solid waste incinerator or energy recovery facility licensed in accordance with Chapter 3745-501 of the Administrative Code.

(3) A premises authorized to beneficially use scrap tires pursuant to rule 3745-580-801 or 3745-580-802 of the Administrative Code.

(4) An operation excluded from the permitting or registration specifications contained in rule 3745-580-205, 3745-580-305 or 3745-580-405 of the Administrative Code, including but not limited to retail tire dealers or tire retreaders.

(5) A scrap tire transporter registered in accordance with rule 3745-580-101 of the Administrative Code.

(6) A facility in another state in compliance with the laws of that state.

(B) Park trailers or vehicles containing scrap tires for no more than fourteen days at a location other than the locations identified in paragraph (A) of this rule. Scrap tires stored in excess of fourteen days shall constitute open dumping unless prior written notification is given to the approved board of health and Ohio EPA stating the vehicle or trailer requires mechanical repairs that will take longer than fourteen days to complete and specifying a time frame for which the repairs will be completed.

(C) Take appropriate actions to prevent the breeding of mosquitoes by doing one of the following:

(1) Remove all water from the scrap tires before transportation.

(2) Shred or cut all scrap tires before transportation.

(3) Treat the scrap tires with a pesticide approved by the United States environmental protection agency and the Ohio department of agriculture before transporting the scrap tires.

(D) A scrap tire transporter may operate permanent and portable equipment to consolidate loads of scrap tires for shipment, provided the equipment is not used to manufacture a product.
