

Ohio Administrative Code

Rule 3745-580-12 Disposal exception for certain off-the-road construction and mining equipment tires.

Effective: June 30, 2023

The owner or lessee of a site may dispose of off-the-road construction and mining equipment scrap tires through burial on the site if the scrap tires meet the following:

- (A) Have a minimum bead width of fourteen inches and a minimum rim or wheel diameter of twenty-four inches.
 - (B) Are limited to only off-the-road construction and mining equipment scrap tires generated on site by equipment owned or leased by the person who owns or leases the site. Acceptance or burial of other scrap tires constitutes open dumping.
 - (C) Are buried in a portion of the site that is least likely to be disturbed by future construction or mining.
-
