

Ohio Administrative Code

Rule 3750-1-01 Definitions and incorporation by reference.

Effective: April 1, 2026

[Comment: For dates of non-regulatory government publications, publications of recognized organizations and associations, federal rules, and federal statutory provisions referenced in this rule, see paragraph (AA) of this rule titled "Referenced materials."]

Terms defined in section 11049 of the Emergency Planning and Community Right to Know Act of 1986 and in 40 CFR Parts 350, 355 and 370 which are not explicitly defined herein are used within the meaning given in that statute and parts as used in the rules adopted by the state emergency response commission:

(A)

- (1) "Administrator" means the administrator of the United States environmental protection agency or the administrator's designee.
- (2) "Agriculture producer" means a facility engaged in the growing of crops or livestock production for retail consumption. The term "agriculture" is a broad term encompassing a wide range of growing operations, not just farms, and includes nurseries or other horticultural operations.

(B) [Reserved.]

(C)

- (1) "Comprehensive Environmental Response, Compensation, and Liability Act" (CERCLA) means Comprehensive Environmental Response, Compensation, and Liability Act of 1980 contained in 42 USC 9601 to 9675 and regulations adopted thereunder.
- (2) "Chemical" means any element, chemical compound or mixture of elements or compounds.
- (3) "Chemical name" means scientific designation of a chemical in accordance with the nomenclature system developed by the "International Union of Pure and Applied Chemistry (IUPAC)" or "Chemical Abstract Service (CAS)" rules of nomenclature, or a name which will clearly identify the chemical.
- (4) "Commission" means the state emergency response commission.
- (5) "Committee" means the local emergency planning committee for the emergency planning district in which the facility is located nominated by the county commissioners and adopted by the commission.

3750-1-01

2

- (6) "Common name" means any designation or identification such as code names, code numbers, trade name, brand name, or generic name used to identify a chemical other than by the chemical name.
- (7) "Complete file" means for the purposes of the first time filer credits under section 3750.14 of the Revised Code, the forms approved by the commission under rule 3750-30-20 of the Administrative Code and fee forms under rule 3750-50-01 of the Administrative Code for any facility that has met the requirements for a first time file in a previous year.
- (8) "Construction facility" means a facility which the equipment is owned and operated by a company involved in the process of building a permanent structure or roadway in which the equipment and company will be removed from the site upon completion of the building process.
- (9) "Contiguous" means the same or geographically adjacent property that may be divided by public or private right-of-way if the entrance and exit between the properties is at a crossroads intersection, and access is by crossings as opposed to going along the right-of-way. Noncontiguous properties owned by the same person but connected by a right-of-way that the person controls and to which the public does not have access is considered contiguous property.
- (10) "Crude oil," "crude," or "petroleum" means liquid petroleum as the petroleum comes out of the ground, as distinguished from refined oils manufactured out of the petroleum.

(D)

- (1) "Director" means the director of the Ohio EPA, or the director's designee.
- (2) "Discharge" includes, but is not limited to, any spilling, leaking, pumping, pouring, emitting, emptying, or dumping, but excludes the following:
 - (a) Discharges in compliance with a permit under Section 402 of the Clean Water Act.
 - (b) Discharges resulting from circumstances identified and reviewed and made a part of the public record with respect to a permit record with respect to a permit issued or modified under Section 402 of the Clean Water Act, and subject to a condition in such permit.
 - (c) Continuous or anticipated intermittent discharges from a point source, identified in a permit or permit application under Section 402 of the

3750-1-01

3

Clean Water Act, that are caused by events occurring within the scope of relevant operating or treatment systems.

(E)

- (1) "Emergency contact" means one person or office that can act as a referral if emergency responders need assistance in responding to a chemical release at the facility.
- (2) "Emergency Planning and Community Right-To-Know Act" (EPCRA) means Emergency Planning and Community Right-To-Know Act of 1986 contained in 42 USC 11001 to 11050 and regulations adopted thereunder.
- (3) "Emergency planning district" means an emergency planning district or joint emergency planning district designated under section 3750.03 of the Revised Code or a joint interstate emergency planning district established by agreement under that section.
- (4) "Environment" means navigable waters and any other surface water, ground water, drinking water supply, land surface or subsurface strata or ambient air.
- (5) "Establishment" means an economic unit, generally at a single physical location, where business is conducted or where services or industrial operations are performed.
- (6) "Extremely hazardous substance" means a substance listed by USEPA in paragraph (A) of rule 3750-20-30 of the Administrative Code and a substance listed by the commission in paragraph (B) of rule 3750-20-30 of the Administrative Code.

(F)

- (1) "Facility" means all buildings, equipment, structures, and other stationary items which are located on a single site or contiguous or adjacent sites and which are owned or operated by the same person (or by person which controls, is controlled by, or under common control with). For purposes of chemical release notification under section 3750.06 of the Revised Code, the term does include motor vehicles, rolling stock, and aircraft. "Facility" includes man-made structures as well as all natural structures in which chemicals are purposefully placed or removed through human means such that the structure functions as a containment structure for human use. A facility may contain more than one establishment.

3750-1-01

4

- (2) "Facility emergency coordinator" means a designated facility representative who will participate in local emergency planning.
- (3) "Fire department" means a fire department of a municipal corporation or township, a township fire district, a joint township fire district, a private fire company or volunteer fire company that has entered into an agreement for the use and operation of firefighting equipment with a municipal corporation, township, township fire district, or joint township fire district or, in a municipal corporation or township where no such fire department or district exists and no such agreement is in effect, the fire prevention officer of the municipal corporation or township having response jurisdiction for a regulated facility.
- (4) "First response equipment" means equipment, other than emergency response and firefighting vehicles, designed primarily for the purpose of facilitating the safe and efficient response to unanticipated and unauthorized releases of hazardous substances and extremely hazardous substances.
- (5) "First time file" means any file for a facility subject to the annual chemical inventory requirements of the section 3750.08 of the Revised Code, and the fee requirements of section 3750.13 of the Revised Code that has submitted an annual chemical inventory to the commission and to the responsible committee, and that has submitted an appropriate fee to the commission. Such a facility file becomes a first time file during the state fiscal year in which the requirements of sections 3750.08 and 3750.13 of the Revised Code have been met for the first time.

If a facility changes ownership and is subject to the requirements of section 3750.08 of the Revised Code the next annual submission of a complete file is considered to be a first time file. When such change results in the submission of a new report under sections 3750.07 and 3750.08 of the Revised Code.

(G) [Reserved.]

(H)

- (1) "Hazardous chemical" has the meanings given to that term in 29 CFR 1910.1200(c). The term also includes chemicals identified or listed pursuant to rule 3750-20-60 of the Administrative Code, but does not include any of the following:
 - (a) Any food, food additive, color additive, drug, or cosmetic regulated by the food and drug administration of the United States department of health and human services.

3750-1-01

5

- (b) Any substance present as a solid in any manufactured item, to the extent that exposure to the substance does not occur under normal conditions of use.
 - (c) Any substance to the extent the substance is used for personal, family, or household purposes, or is present in the same form and concentration as a product packaged for distribution and use by the general public, including, without limitation, household and consumer products that are stored prior to or displayed for distribution to the consumer when in the same form and concentration and products that are not intended for distribution to the general public and are in the same form and concentration as products packaged for distribution to and use by the general public, unless the chemical is subject to a reporting requirement for which a variance has been issued under division (B) or (C) of section 3750.11 of the Revised Code.
 - (d) Any substance to the extent the substance is used in a research laboratory or a hospital or other medical facility under the direct supervision of a technically qualified individual.
 - (e) Any substance to the extent the substance is used in routine agricultural operations or is a fertilizer held for sale by a retailer to the ultimate customer.
 - (f) Any substance that is subject to an exclusion under 29 CFR 1910.1200(b)(6).
- (2) "Hazard communication standard" means standards promulgated by the occupational safety and health administration, 29 CFR 1910.1200.
- (3) "Hazardous substance" means a substance listed by USEPA in paragraph (A) of rule 3750-20-50 of the Administrative Code and a substance listed by the commission in paragraph (B) of rule 3750-20-50 of the Administrative Code.
- (I)
- (1) "Inactive file" means a file for a facility for which the owner or operator has previously filed under rules 3750-30-20 and 3750-50-01 of the Administrative Code and that has subsequently changed ownership or status.
 - (2) "Incomplete file" means, for the purposes of the first time filer credits under section 3750.14 of the Revised Code, any facility file not meeting the conditions to be classified as a first time file or a complete file.
 - (3) "Inventory form" means the "Emergency and Hazardous Chemical Inventory Form" containing Tier I and Tier II information as set forth in 42 USC 11022

3750-1-01

6

or a form adopted by the commission as prescribed in rule 3750-30-20 of the Administrative Code.

(J) [Reserved.]

(K) [Reserved.]

(L) [Reserved.]

(M) [Reserved.]

(N)

(1) "Navigable waters" means the waters of the United States including the territorial seas as contained within the state of Ohio. The term includes the following:

- (a) All waters that are currently used, were used in the past, or may be susceptible to use in the interstate or foreign commerce, including all waters that are subject to the ebb and flow of the tide.
- (b) Interstate waters, including interstate wetlands.
- (c) All other waters such as intrastate lakes, rivers, streams (including intermittent streams), mudflats, sandflats, and wetlands, the use, degradation, or destruction of which would affect or could affect interstate or foreign commerce including any of the following:
 - (i) That are or could be used by interstate or foreign travelers for recreational or other purposes.
 - (ii) From which fish or shellfish are or could be taken and sold in interstate or foreign commerce.
 - (iii) That are used or could be used for industrial purposes in interstate commerce.
- (d) All impoundments of waters otherwise defined as navigable waters under Section 402 of the Clean Water Act.
- (e) Tributaries of waters identified in paragraphs (N)(1)(a) to (N)(1)(d) of this rule: provided, that waste treatment systems (other than cooling ponds that meets the criteria contained in Section 402 of the Clean Water Act) are not waters of the United States.

3750-1-01

7

- (2) "Negative declaration" means any document which may be filed by a facility that it is not subject to either section 3750.07 or 3750.08 of the Revised Code and certifying that the facility has no hazardous chemicals at or above the threshold planning quantity.
- (O)
- (1) "Ohio EPA" means the Ohio environmental protection agency.
- (2) "Oil" means oil of any kind or in any form including, without limitation, petroleum, fuel oil, sludge, oil refuse, and oil mixed with wastes other than dredged spoil.
- (3) "Oil and gas extraction storage facility" means a facility that exclusively stores crude oil or liquid hydrocarbons or other fluids resulting, obtained, or produced in connection with the production of storage of crude oil or natural gas; receives the crude oil liquid hydrocarbon or other stored fluids by direct conveyance through piping or tubing; is located on the same site as, or on a site adjacent to, the well from which the crude oil, liquid hydrocarbons, or other fluids are produced or obtained; and is used for the storage of the crude oil, liquid hydrocarbons, or other fluids prior to their transportation off the premises of the facility for sale, use or disposal.
- (4) "OSHA" means the occupational safety and health administration created by the Occupational Safety and Health Act of 1970.
- (5) "Owner or operator" means the person who actually owns or operates any such facility and any other person who controls, is controlled by, or is under common control with the person who actually owns or operates the facility.
- (P) "Person" means the state, any political subdivision, any other state or local body, the United States and any agency or instrumentality thereof, and any person as defined in section 1.59 of the Revised Code.
- (Q) [Reserved.]
- (R)
- (1) "Release" means any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing of into the environment including, without limitation: The abandonment or discarding of barrels, containers, and other closed receptacles that contained any oil, hazardous chemical, hazardous substance, or extremely hazardous substance. The term does not include any discharge, emission, injection, or disposal

3750-1-01

8

into the environment of any oil, hazardous chemical, hazardous substance, or extremely hazardous substance that is in compliance with Chapter 1509., 3704., 3734., or 6111. of the Revised Code, or rules adopted thereunder, the terms or conditions of a current and valid permit or license, or order, issued thereunder, or a plan approval made thereunder.

- (2) "Reportable quantity (RQ)" means for any hazardous substance or extremely hazardous substance, the reportable quantity established in rule 3750-20-50 of the Administrative Code or rule 3750-20-30 of the Administrative Code.

(S)

- (1) "Safety data sheet" or "SDS" means the sheet prepared in accordance with 29 CFR 1910.1200(g).
- (2) "SARA" means the Superfund Amendments and Reauthorization Act of 1986.
- (3) "Sheen" means an iridescent appearance on the surface of water.
- (4) "Sludge" means an aggregate of oil or oil and other matter of any kind in any form other than dredged soil having a combined specific gravity equivalent to or greater than water.
- (5) "State" means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, United States Virgin Islands, the Northern Mariana Islands, and any other territory or possession over which the United States has jurisdiction and tribal lands.

(T)

- (1) "Threshold planning quantity (TPQ)" means, for an-extremely hazardous substance listed in 40 CFR Part 355 Appendices A and B, the quantity listed in the columns (threshold planning quantity) for that substance.
- (2) "Threshold quantity (TQ)" means the minimum level for a hazardous chemical after which a facility becomes subject to rules 3750-30-15 and 3750-30-20 of the Administrative Code with respect to such chemical.

(U) "USEPA" means the United States environmental protection agency.

(V) "Vessel" means every watercraft or other artificial contrivance used or capable of being used as a means of transportation on water.

3750-1-01

9

(W) "Working days" include any day on which the state and federal government offices are open for normal business. Saturdays, Sundays, and official state and federal holidays are not working days; all other days are.

(Z) [Reserved.]

(AA) Referenced materials. This chapter includes references to certain matter or materials.

The text of the referenced materials is not included in the rules contained in this chapter. Information on the availability of the referenced materials as well as the date of, or the particular edition or version of the material is included in this rule.

For material subject to change, only the specific versions specified in this rule are referenced. Material is referenced as existed on the effective date of this rule.

Except for subsequent annual publication of existing (unmodified) Code of Federal Regulation compilations, any amendment or revision to a referenced document is not applicable unless and until this rule has been amended to specify the new dates.

(1) Availability. The materials incorporated by reference are available as follows:

- (a) Atomic Energy Act of 1954. Information and copies may be obtained by writing to: "Superintendent of Documents, Attention: New Orders, PO Box 371954, Pittsburgh, PA 15250-7954." The full text of the act is also available in electronic form at <http://www.nrc.gov/about-nrc/governing-laws.html>. The act is also available for inspection and copying at most public libraries and "The State Library of Ohio."
- (b) Chemical Abstract Service (CAS). Information can be obtained by writing to: "Chemical Abstract Service, 2540 Olentangy River Road, Columbus, OH 43202," or by visiting their web site at www.cas.org.
- (c) Clean Air Act. Information and copies may be obtained by writing to: "Superintendent of Documents, Attn: New Orders, PO Box 371954, Pittsburgh, PA 15250-7954." The full text of the act as amended in 1990 is also available in electronic format at <https://www.epa.gov/clean-air-act-overview/clean-air-act-text>. A copy of the act is also available for inspection and copying at most public libraries and "The State Library of Ohio."
- (d) Clean Water Act. Information and copies may be obtained by writing to: "Superintendents of Documents, Attention: New Orders, PO Box 371954, Pittsburgh, PA 15250-7954." The full text of the act is also

available in electronic form at <https://www.govinfo.gov/content/pkg/USCODE-2015-title33/pdf/USCODE-2015-title33-chap26.pdf>. The act is also available for inspection and copying at most public libraries and "The State Library of Ohio."

- (e) Code of Federal Regulations. Information and copies may be obtained by writing to: "Superintendent of Documents, Attention: New Orders, PO Box 371954, Pittsburgh, PA 15250-7954." The full text of the CFR is also available in electronic format at <http://www.ecfr.gov/cgi-bin/ECFR?page=browse>. The CFR compilations are also available for inspection and copying at most public libraries and "The State Library of Ohio."
- (f) Comprehensive Environmental Response, Compensation, and Liability Act of 1980. Information and copies may be obtained by writing to: "Superintendent of Documents, Attention: New Orders, PO Box 371954, Pittsburgh, PA 15250-7954." The full text of the act is also available in electronic form at <https://www.govinfo.gov/content/pkg/USCODE-2009-title42/pdf/USCODE-2009-title42-chap103.pdf>.
