

Ohio Administrative Code

Rule 3750-60-52 Standards for sufficiency of substantiation of a trade secret claim.

Effective: April 1, 2026

- (A) The claimant withholding a specific chemical identity from required submissions under sections 3750.04, 3750.05, 3750.07, and 3750.08 of the Revised Code shall make factual assertions that are sufficient to support a conclusion that the chemical identity is a trade secret. These assertions are made by completely answering all the questions of rule 3750-60-20 of the Administrative Code.
- (B) The commission has adopted, under rule 3750-60-50 of the Administrative Code, sufficiency criteria which are standards used to determine whether the claimant has established a prima facie case for trade secrecy.
- (C) The facts asserted under rule 3750-60-20 of the Administrative Code will be considered against the sufficiency criteria to make a trade secret determination of rule 3750-60-50 of the Administrative Code.
