

Ohio Administrative Code Rule 3772-20-08 Communications system.

Effective: April 29, 2017

- (A) Each casino operator shall have a communications system that allows all members of the security department to communicate with each other.

 - (B) The communications system shall provide two-way communications between members of the security department and members of the surveillance department.

 - (C) The communications system shall be available to and useable by the commission, its gaming agents, or other authorized personnel upon request.
-
