

Ohio Administrative Code

Rule 4101:14-1-07 Mechanical operation and maintenance.

Effective: February 7, 2020

(A) Mechanical operation

All passenger tramways shall be operated within the design limits specified by the manufacturer and the standards set forth in ANSI B77.1-2017. No passenger tramway shall be in service unless all devices that affect the control of the passenger tramway itself are operational and in compliance with ANSI B77.1-2017, including auxiliary drive systems.

(B) Maintenance.

The maintenance record requirements provided in sections 2.3.5.3, 3.3.5.3, 4.3.5.3, 5.3.5.3, 6.3.5.3, and 7.3.5.2 of ANSI B77.1-2017 apply to all operators subject to these regulations. The inspector may, upon request by the board, review such records upon ten days notice during business hours (nine a.m. to five p.m. weekdays).
