

Ohio Administrative Code

Rule 4101:4-2-02 Types and qualifications of inspectors.

Effective: July 1, 2024

(A) Only an "Authorized Inspector" employed by an "Authorized Inspection Agency" is permitted to conduct inspections of boilers and pressure vessels during construction and fabrication to determine compliance with the rules of the board.

(B) Only a general or special inspector is permitted to conduct inservice periodic inspections for boilers and repair and alteration inspections of boilers and pressure vessels to determine compliance with the rules of the board.

(C) An applicant for examination as an inspector of boilers and pressure vessels is to be qualified as prescribed in the "National Board" publication "NB-263, Rules for National Board Inservice and New Construction Commissioned Inspectors" as referenced in rule 4101:4-3-01 of the Administrative Code.

(D) The written examination administered by the superintendent is to be the "National Board Commission Examination."

(E) The superintendent may allow an applicant to sit for the examination at an "On-Demand" location accepted by the "National Board" in accordance with "Part 2" of the "National Board" publication "NB-263, Rules for National Board Inservice and New Construction Commissioned Inspectors" as referenced in rule 4101:4-3-01 of the Administrative Code.
