

Ohio Administrative Code

Rule 4101:6-1-23 Storage of sterilized bedding and upholstered furniture.

Effective: November 5, 2021

(A) Mattresses shall be stored at least one foot from the floor in a dry room, preferably above ground, and so spaced to allow four inches of free air circulation on all sides.

(B) The storage area for sterilized or sanitized items shall be clean and free from trash, vermin, insects, filth or any hazardous waste.

(C) New, sterilized, or sanitized articles of upholstered furniture, bedding, stuffed toys, or filling materials shall be at all times kept separate from any secondhand articles or materials that are unsanitized or unsterilized.
