

Ohio Administrative Code

Rule 4123:1-7-03 Galleries.

Effective: January 1, 1981

(A) Galleries where molten metal is poured into molds shall be:

(1) Provided with solid, leakproof floors, or

(2) Guarded to prevent access to the area below the pouring operation.

(B) Partitions of sheet steel no less than forty-two inches in height shall be installed on any open side of galleries described in paragraph (A) of this rule.
