

## Ohio Administrative Code

### Rule 4167-6-09 Records for substances required to be monitored or measured.

Effective: November 15, 1996

---

(A) Each public employer shall maintain accurate records of public employee exposure to potentially toxic materials, carcinogenic materials, and harmful physical agents that are required to be monitored or measured under any Ohio public employment risk reduction standard.

(B) Each affected public employee or public employee representative shall have the opportunity to observe and/or participate in any monitoring or measuring of such regulated exposures.

(C) An affected public employee or public employee representative may undertake his or her own monitoring or measuring of such regulated exposures.

(D) A public employer who monitors or measures a regulated exposure shall provide access to those records upon request of an affected current or former public employee or a public employee representative regarding the individual employee's exposure. A public employee or public employee representative who monitors or measures a regulated exposure shall also provide access to those records on request of the public employer and/or affected employees.
