A barrier is a permanent fixture or feature of the property that distinguishes the display lot from residences or other businesses, comprised of metal, brick, stone, concrete, wood, heavy support cable, landscaping, curbing, or other comparable feature that creates a distinct space for the display lot. It shall clearly delineate a separation between a residence or an unrelated business and the beginning of the dealership's established place of business. The business hours shall be legible and posted in a conspicuous place near the entrance of the office. A motor vehicle dealer shall notify the registrar in writing within fifteen days of any change in the posted business hours;

(C) A physical barrier between the dealership and service facility is not required at an established place of business that includes a service facility that is used to perform service on motor vehicles, if the established place of business meets the following requirements:

(1) The service facility is owned and operated by each person listed on the dealer license as a sole proprietor, officer(s) of a corporation, trustee(s) of a business trust, or in the case of a partnership or limited liability company, partner(s) or member(s), or any such entity as defined in division (A) of section 4517.01 of the Revised Code;

(1) The dealer shall present a plan to clearly identify, distinguish and segregate through signage or other measures any vehicles the dealer is offering for sale from any other vehicles that may be present on the premises at any time;

(2) The registrar shall review the plan. If the registrar determines that there is no reasonable health or safety threat to customers, neighbors, or neighboring businesses; that the dealer acted in good faith in buying or leasing the property; and that the dealer has made a reasonable effort to comply with the barrier requirements, but that restrictions imposed by local zoning ordinances or by the lessor prohibit the establishment of a barrier, the registrar, in the registrar's discretion, may approve the plan, approve the plan with modifications, or disapprove the plan.

(F) In the event that a used motor vehicle dealer's license is sought by an applicant that surrenders a new motor vehicle dealer's license, and specific circumstances prevent the location previously used for operation of the new motor vehicle dealership from meeting all of the requirements of section 4517.03 of the Revised Code and this rule, the registrar may exercise discretion to grant a used motor

vehicle dealer's license at said location despite the defect.
