

Ohio Administrative Code Rule 4713-5-03 Required course curriculum.

Effective: January 2, 2025

(A) Each school shall annually provide to the board a course curriculum for review and approval that takes into consideration the subjects and coursework required for licensure, including incorporating any standards adopted by the board pursuant to Chapters 4709. and 4713. of the Revised Code.

(1) A proprietary school may use its own form to outline its course curriculum, but the board shall approve the course curriculum prior to its use.

(2) Prior to the beginning of each school year, a career technical school must outline its course curriculum using forms provided by the board, and the Board must approve the course curriculum prior to its use.

(B) All career technical schools and proprietary schools offering programs in cosmetology, or a branch of cosmetology, or barbering, may schedule either clock hours, credit hours, or competency-based credit hours in accordance with the rules of the board and in an amount equivalent to the total clock hours required for each program offered. Competency-based credit shall only be offered for academic courses allowed under paragraphs (B)(1), (B)(2), (B)(3), (B)(4), and (B)(5) of this rule. Career technical schools shall meet the program requirements as follows:

(1) The total time scheduled for the cosmetology program shall be at least fifteen hundred hours and sufficient to complete and pass the approved course curriculum. Cosmetology students shall successfully complete and pass the cosmetology program course curriculum which may include up to a maximum of four academic courses that meet state curriculum minimum graduation requirements and are taken during the time the student is enrolled in the cosmetology program. The academic courses to be taken during the time the student is enrolled in the cosmetology program can include any of the courses in paragraph (B)(6) of this rule, or if a student is on an IEP, as required by the IEP.

(2) The total time scheduled for the hair design program shall be at least one thousand hours and

sufficient to complete and pass the approved course outline curriculum. Hair design program students shall complete and pass hair design course outlines which may include up to a maximum of one hundred fifty hours of academic courses that meet state curriculum minimum requirements and are taken during the time the student is enrolled in the hair design program. The academic courses to be taken during the time the student is enrolled in the hair design program can include any of the courses in paragraph (B)(6) of this rule, or if a student is on an IEP, as required by the IEP.

(3) The total time scheduled for the barbering program shall be at least eighteen hundred hours and sufficient to complete and pass the approved course curriculum. Barber students shall successfully complete and pass the barber program course curriculum which may include up to a maximum of four academic courses that meet state curriculum minimum graduation requirements and are taken during the time the student is enrolled in the barbering program. The academic courses to be taken during the time the student is enrolled in the barber program can include any of the courses in paragraph (B)(6) of this rule, or if a student is on an IEP, as required by the IEP.

(4) The total time scheduled for the esthetics program shall be at least six hundred hours and sufficient to complete and pass the approved course outline curriculum. Esthetics program students shall complete and pass esthetics course outlines which may include up to a maximum of one hundred fifty hours of academic courses that meet state curriculum minimum requirements and are taken during the time the student is enrolled in the esthetics program. The academic course to be taken during the time the student is enrolled in the esthetics program can include any of the courses in paragraph (B)(7) of this rule, or if a student is on an IEP, as required by the IEP.

(5) The total time scheduled for the manicuring program shall be at least two hundred hours and sufficient to complete and pass the approved course outline curriculum. Manicure program students shall complete and pass manicure course outlines which may include up to a maximum of fifty hours of academic courses that meet state curriculum minimum requirements and are taken during the time the student is enrolled in the manicure program. The academic course to be taken during the time the student is enrolled in the manicure program can include any of the courses in paragraph (B)(7) of this rule, or if a student is on an IEP, as required by the IEP.

(6) The four academic courses from the following list shall be the only courses counted in paragraph (A)(1) of this rule: anatomy; physiology; chemistry; advanced chemistry; any mathematics; finance;

business marketing; integrated English III and IV; applied communications; English language and composition; speech; physics, and advanced biology courses accepted as meeting graduation requirements of twenty-one carnegie units or as required by the IEP. The four academic courses that shall be counted as part of the total time scheduled for the approved program shall constitute no more than twenty-five per cent of the hours required to complete the program.

(7) The one hundred fifty hours of academic courses may only be on the following subjects: anatomy; physiology; chemistry; advanced chemistry; physics; biology; advanced biology.

(C) Career technical schools may contract with proprietary schools for students to complete and pass portions of the course curriculum in order to obtain full credit for the program. Career technical schools are responsible for student outcomes unless the contract states otherwise.

(D) The total time scheduled for a barber program for licensed cosmetologists and hair designers shall be at least one thousand hours and comply with the program requirements set forth in rule 4713-5-02 of the Administrative Code.

(E) If a barber instructor training program is offered, the total time scheduled for the program shall be at least five hundred hours.
