

## Ohio Administrative Code

### Rule 4729:5-5-13 Serial numbering of prescriptions.

Effective: December 1, 2020

---

All outpatient prescriptions must be serially numbered when entered into a computer system or when dispensed under a manual system.

- (A) The serial number must appear on the original prescription.
  - (B) There must be a complete accounting of all numbers used in the serial numbering system.
  - (C) All prescriptions that cannot be refilled, either because of the dispensing of all refills or the length of time since issuance, shall be assigned a new serial number upon an authorization for additional dispensing by a prescriber or prescriber's agent.
-
