

Ohio Administrative Code Rule 4901:1-40-02 Purpose and scope.

Effective: [March 26, 2020](#)

(A) This chapter addresses the implementation of the renewable portfolio standard, including the incorporation of renewable energy credits, as detailed in sections 4928.64 and 4928.645 of the Revised Code respectively. Parties affected by these renewable portfolio standard rules include all Ohio electric utilities and all electric services companies serving retail electric customers in Ohio. With the exception of the filing requirements set forth in rule 4901:1-40-05 of the Administrative Code, any entities that do not serve Ohio retail electric customers during a given calendar year shall not be required to comply with the terms of the renewable portfolio standard during that calendar year.

(B) The commission may, upon an application or a motion filed by a party, waive any requirement of this chapter, other than a requirement mandated by statute, for good cause shown.
