

Ohio Administrative Code Rule 4906-3-02 Preapplication conference.

Effective: December 11, 2015

An applicant considering construction of a major utility facility or economically significant wind farm may request a preapplication conference with the board staff prior to submitting an application. The results of such conference(s) shall in no way constitute approval or disapproval of a particular site or route, and shall in no way predetermine the board's decision regarding subsequent certification or approval.
