

Ohio Administrative Code

Rule 4906-6-11 Construction of approved projects and notification of construction.

Effective: May 30, 2024

(A) Applicants who file accelerated certificate applications with the board may begin construction of projects reported in the applications after the date that automatic approval occurs or upon the approval by the board.

(B) Applicants shall file a notice with the board at least seven days in advance of beginning construction of the involved project.

(C) Prior to commencement of construction, the applicant shall inform affected property owners and residents of the nature of the project, specific contact information of applicant personnel who are familiar with the project, the proposed schedule for project construction and restoration activities, and a complaint resolution process. Notification to affected property owners and residents shall be given at least seven days prior to work on the affected property.

(D) Applicants shall file a notice with the board within seven days following completion of the involved project.
