

Ohio Administrative Code

Rule 5122-27-07 Addiction treatment level of care.

Effective: [August 1, 2026](#)

- (A) The purpose of this rule is to establish criteria for assessing the appropriate level of care for each client receiving certifiable services or supports for substance use disorder treatment.
- (B) A provider is to determine level of care at admission, for continued stay, for change in level of care recommendation, and at discharge by conducting a multi-dimensional assessment utilizing the American society of addiction medicine criteria third edition (2013), also known as the "ASAM patient placement criteria."
- (C) When a client is placed in or referred to a level of care other than the assessed level of care, a provider is to document the rationale for the placement or referral.
