

Ohio Administrative Code

Rule 901:1-17-11 Poultry.

Effective: [September 11, 2026](#)

- (A) Poultry, commercial gamebirds, ratites, and hatching eggs imported into Ohio shall meet one of the following movement requirements:
- (1) Be accompanied by an interstate certificate of veterinary inspection;
 - (2) Move from a national poultry improvement plan flock with a USDA national poultry improvement plan, VS 9-3 form; or
 - (3) Move directly to a slaughter establishment.
- (B) Poultry, commercial gamebirds, and ratites imported into Ohio must meet one of the following testing requirements:
- (1) Originate directly from a flock or hatchery which is a participant in the national poultry improvement plan for the eradication of disease and be accompanied by documentary evidence that show they meet the requirement of this paragraph;
 - (2) Originate directly from a flock which has had a negative test for pullorum-fowl typhoid disease within twelve months prior to entry and be accompanied by flock test record that show they meet the requirements of this paragraph;
 - (3) Have a negative test for pullorum-fowl typhoid disease, within thirty days prior to entry and be accompanied by flock test records that show they meet the requirements of this paragraph; or
 - (4) Be tested and found negative for pullorum/fowl typhoid disease upon arrival at the Ohio destination for sale, swap, or show.
- (C) The rapid whole blood test shall not be used to test turkeys for compliance with the requirements of paragraphs (B)(2) and (B)(3) of this rule.
- (D) Waterfowl, doves, and pigeons are exempt from the requirements of paragraph (B) of this rule.
