

Ohio Administrative Code

Rule 901:10-2-15 Manure management plan and the plan for the disposal of dead livestock.

Effective: January 1, 2025

(A) A permit to operate shall include a mortality management plan for the disposal of dead livestock and include best management practices for burning, burial, rendering, composting, alkaline hydrolysis or other methods consistent with sections 941.14, 939.04 and of the Revised Code.

(B) In the alternative, the owner or operator may choose to follow the requirements set forth in section 3734.02 of the Revised Code and rules promulgated thereunder.

(C) Records for implementing the mortality management plan for the disposal of dead livestock shall be included in the operating record set forth in rule 901:10-2-16 of the Administrative Code.

(D) In the event of catastrophic mortality losses and if normal mortality management methods cannot handle such losses, the director may approve methods of mortality management not identified in a permit to operate.
