

Ohio Administrative Code

Rule 901:5-1-05 Weighing of fertilizer and requirements for shipping invoice.

Effective: November 26, 2018

(A) No person shall distribute any fertilizer other than by net weight unless the director has approved the device which is used to measure the fertilizer.

(B) A meter may be used to deliver fertilizer by volume provided that each individual meter so used has been tested and approved by the director.

(C) Each distributor shall include on the shipping invoice or delivery ticket for any fertilizer which is delivered by volume:

(1) Volume of fertilizer delivered;

(2) The calculated net weight derived from the volume delivered; and

(3) The conversion factor used to derive the calculated net weight from the volume delivered.
